

Inclusive Practice

Training and lived experience storytelling

CULTURAL COMPETENCY

Our Cultural Competency Training equips organisations to work effectively with diverse clients, customers, and teams. Through reflection, lived experience storytelling, and practical strategies, participants develop concrete steps for inclusive workplace practice.

SPEAKERS BUREAU

Book a guest speaker, panel, or facilitated session that connects your audience with lived experience. Through real stories of migration, identity, and inclusion, participants build connections, deepen understanding, and gain insights that drive meaningful change in their team.

CUSTOM TRAINING

We work with you to design training that fits your team, sector, and goals. From targeted workshops to multi-session programs, our tailored approach delivers practical outcomes that strengthen your organisation's cultural capability and support everyday workplace practice.

Who We Are

Ballarat Regional Multicultural Council (BRMC) has been working at the heart of our region's multicultural community for over 25 years.

We connect people, build understanding, and support organisations to create inclusive, culturally responsive services.

What We Do

We offer cultural training and lived experience storytelling to help organisations:

- Build confidence working across cultures
- Reflect on barriers and bias in everyday practice
- Create more inclusive, human-centred services

Our sessions combine real stories with practical tools, tailored to your team and context.
